

AIGI 95 (High Efficiency Pump/Valve Packing)

Product Description

AIGI 95 is an interbraid packing using a high quality Synthetic Fiber which is lubricated before and after braiding with PTFE dispersion and then finished with a unique break-in lubricant lubricant. Because of the lubrication through out the packing it offers extended packing life and dramatically reduces equipment damage.

Property	Value
Color	Brown
Temperature	260°C (500°F)
PH Range	0 ~ 13
Speed	8m/s (1600 Ft/min)
Pressure	35kg/cm ² (510 PSI)

Application

High efficiency pump packing for general service use against water, mild chemicals and light slurries
